The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly of Ontario:

I extend warmest greetings to you on this the first opportunity I have had to address the Legislature of Ontario since assuming office as the representative in the Province of Ontario of our beloved Sovereign, Queen Elizabeth II.

I should like to express my deep appreciation of the affectionate welcome I have enjoyed and the confidence which has been expressed for the office which I hold and for myself. I shall endeavour to preserve the dignity of the office of the Lieutenant Governor and to serve our Sovereign and the people of Ontario to the maximum of my ability.

The First Session of the Twenty-eighth Parliament of Ontario is about to end. This Session, which also marks the beginning of the second century of the Province of Ontario, has been one of the longest in the history of the Legislature. Since the Session began on February 14th with the Speech from the Throne read by my distinguished predecessor, the Honourable W. Earl Rowe, the Public and Private Bills placed before you for consideration and approval make this Session one of the most productive in recent years.

Those legislative proposals which you have approved will ensure the further strength and ability of the people of Ontario to meet their responsibilities to our Province and to our country. I commend the Honourable Members for their diligence and constructive participation and congratulate each of you on the responsible and dedicated manner in which you discharged your obligations to your constituents and this House.

The Legislative program which this House has approved included enactments which will provide for equality of educational opportunity for all the young people of Ontario. Passage of amendments to The Secondary Schools and Boards of Education Act and to The Separate Schools Act allow for the creation of larger units of administration for public, secondary, and separate schools. A substantial decrease in the number of school jurisdictions will follow. Further developments within the school system of Ontario include amendments to The Schools Administration Act and The Secondary Schools and Boards of Education Act. These authorize the establishment of schools and classes in the French language at the elementary and secondary levels of the public school system.

The Honourable Members approved record expenditures for all facets of our educational system to ensure that it remains one of the most comprehensive and progressive available anywhere. This support will enable our institutions of higher learning to improve upon the quality of programs for which they have already earned an enviable reputation.

A significant and far-reaching development was the transfer of a substantial degree of the weight of taxation borne by property owners. Honourable Members approved several measures which reduced this burden, including The Municipal Tax Reduction Act and those enabling the assumption by the Province from the municipalities of the costs of the administration of justice.

Legislation was approved to implement the program for Equalization of Industrial Opportunity whereby many of our smaller communities are assisted in acquiring industry and, thereby, stimulate more uniform economic growth and employment throughout Ontario.

Improved working conditions will follow legislation of the Department of Labour. The Employment Standards Act replaces several other enactments concerning employment practices and conditions. Under this Act overtime payment beyond 48 hours of work weekly, equality of payment for men and women, and the establishment of seven statutory holidays annually were given support. Amendments to The Industrial Standards Act are intended to improve safe working conditions. Substantial increases in benefits under The Workmen's Compensation Act also were approved.

The well-being of the people of Ontario continued to be safeguarded through continuing attention to the social services required by a growing and vigorous population. Additional benefits under the Health Care Insurance Programs of the Department of Health and welfare services of the Department of Social and Family Services have been strengthened and broadened. Included are out-patient care, essential ambulance services and optometric benefits. Substantial progress is being achieved through an expanding preventive health care program.

Programs for the control of air and water pollution were strengthened, with funds approved to enable the Government's programs to be vigorously pursued.

Consolidated were 18 previous enactments of the Legislature dealing with adult offenders. When complemented by federal legislation, The Department of Correctional Services Act will authorize the establishment of a program whereby inmates will be permitted to participate in vocational or educational training within the community. The new Act also incorporates the change of name of the Department of Reform Institutions.

Enacted during this Session was The Provincial Courts Act, which provides for the establishment of a Provincial Court in each county and district in Ontario. These courts will absorb and replace the Magistrates and Juvenile and Family Courts and will provide a court system of greater flexibility than heretofore.

Amendments to The Securities Act, The Loan and Trust Corporations Act, The Insurance Act and The Consumer Protection Act provide greater protection to the people of Ontario in their financial dealings.

Legislation was considered and approved to establish the second large regional government in Ontario. The Regional Municipality of Ottawa-Carleton will become a functioning metropolitan community on January 1st, 1969.

The agricultural industry of Ontario was further strengthened by various proposals put before and approved by the Honourable Members. Enactments respecting the marketing of cattle for the production of beef give Ontario farmers authority to establish a beef improvement association and to develop and improve the grading and marketing of beef.

The legislative program put forward by the Department of Transport and approved by the House was the most significant in the eleven-year life of the Department. Legislative measures were taken to assist municipalities in constructing airstrips. Other measures dealt with highway and vehicle safety and contained important advances, including specific recognition of commercial highway transport to the economic life of Ontario. Legislative proposals by the Department of Highways, in concert with the Department's extensive construction program, will further prevent dangerous traffic conditions developing on roads leading to controlled access highways.

During the Session, legislation was approved to establish the Royal Ontario Museum as an independent institution with increased flexibility in serving the interest of the people of Ontario.

Extensive reorganization of two existing Departments of Government was given legislative approval. The new Department of Treasury and Economics will bring together the machinery of the Government for the development of policies on financial and economic management and federal-provincial relations. The Department of Revenue will administer taxation statutes and other revenue legislation. The new Department of Trade and Development is charged with the responsibility for housing and establishment and stimulation of business and industrial activity throughout the Province.

In reviewing the First Session of the Twenty-eighth Parliament of Ontario, I join with the Honourable Members in expressing the gratitude of the people of Ontario to the Public Servants of this Province. This year marks the 50th anniversary of the establishment of the Ontario Civil Service Commission. During this half century the Commission and the Public Servants have demonstrated their deep loyalty and sense of duty in the service of the residents of this Province. On behalf of my Government and the Honourable Members, I commend them for the successful performance of their assigned tasks.

In discharging their responsibilities, all Honourable Members have had ample opportunity to scrutinize thoroughly and give approval to the spending estimates of the Departments of Government. I thank the Honourable Members for making provision for the funds necessary to conduct the business of the Government. The economic growth of Ontario and the excellent financial position of the Province will enable the necessary funds to be raised. I am pleased to note that the affairs of the Government are in excellent order.

In declaring prorogued this First Session of the Twenty-eighth Parliament, I pray that under the guidance of Divine Providence our Province will continue to provide an increasing measure of satisfaction and prosperity for all our people.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

RODERICK LEWIS, Q.C.,
Clerk of the Legislative Assembly.

(4) No holder of a freight-forwarder's licence shall be the holder of an operating licence.

3a.—(1) An application for a freight-forwarder's licence shall be in Form 10a.

(2) Every Class FF licence expires on the 31st day of December for the year in which it was issued.

3. Subsection 1 of section 14 of Regulation 503 of Revised Regulations of Ontario, 1960 is amended by adding thereto the following clause:

(ff) the name of the freight forwarder issuing the bill of lading.

4. Subsection 3 of section 14 of Regulation 503 of Revised Regulations of Ontario, 1960 is amended by inserting after "carrier" in the second line "or the freight forwarder" and after "carrier" in the sixth line "or issuing freight forwarder".

(2) The following conditions shall be deemed to be a part of every contract for transportation for compensation between a freight forwarder and a shipper:

1. The freight forwarder of the goods herein described is liable for any loss thereof or damage or injury thereto, except as herein provided.

2. The freight forwarder is not liable for loss, damage or delay to any of the goods described in the bill of lading caused by an Act of God, the Queen's or public enemies, riots, strikes, defect or inherent vice in the goods, the act or default of the shipper or owner, the authority of law, quarantine or differences in weights of grain, seed, live-stock or other commodities caused by natural shrinkage.

4. The amount of any loss, damage or injury for which the freight forwarder is liable, whether or not the loss, damage or injury results from negligence, shall be computed on the basis of,

6. The freight forwarder is not liable for loss, damage, injury or delay to any goods carried under the bill of lading unless notice thereof setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage, injury or delay is given in writing to the freight forwarder at the point of delivery or at the point of origin within ninety days after the delivery of the goods, or, in the case of failure to make delivery, within ninety days after a reasonable time for delivery has elapsed.

7. No freight forwarder is bound to carry any documents, specie or any articles of extraordinary value unless by a

special agreement to do so and, where the nature and stipulated value of the goods is disclosed to him, the duty of obtaining such special agreement is on the freight forwarder.

8. Every person, whether as principal or agent, shipping explosives or dangerous goods without previous full written disclosure to the freight forwarder of their nature, shall indemnify the freight forwarder against all loss, damage or injury caused thereby, and the goods may be warehoused at the risk and expense of the owner of the goods.

24.—(1) The Director may suspend or cancel a certificate of qualification,

(a) where the holder is convicted of an offence under the Act or the regulations; or
